ORGANIC BEAUTY

Green your beauty cupboard. These products contain natural, organic or sustainable ingredients, and are not only good for your skin, but for the environment too.

Body Shop's Wonderblur contains Edelweiss stem cells. This lightweight blur helps smooth skin texture, reduces fine lines and pores for an even, flawless finish and provides 12-hour hydration.

Beauncence Anti-aging care masque offers intense moisturisation and helps replenish the ceramides in your skin. Enriched with proteasyl, it protects and repairs the skin from environmental damage, while enhancing the production of collagen and elastin, helping to create younger healthier-looking skin.

Kieh's hydro-plumping re-texturizing serum concentrate is formulated with a complex of 15% plant-based glycerin and shiso leaf extract, and utilizes serum-to-liquid technology to hydrate your skin's deeper layers. Aims to plump skin and smooth the appearance of fine lines and rough texture.

With 99% of ingredients from natural origin, and 20% from organic farming, **Comfort Zone Sacred Nature Bio-certified Day Cream** is also 100% free of parabens, mineral oils, colourants, silicones and synthetic perfumes. Plus it aims to help reduce wrinkles and delivers young-looking skin. And this packaging looks good on your dressing table or in your bathroom.

More and more beauty brands are trying to keep the ingredients they utilise in their products as close to natural as possible. While 100% organic ingredients is next to impossible, looking out for words like natural and organic sources, or sustainable resources, means that they are green products. However, its what they don't use that really counts at the end of the day: no unnecessary chemicals, fillers, parabens or additives.

Containing certified organic ingredients blended with natural ingredients, **Oh-lief Natural Body Wash Grapefruit & Sweet Orange** is a fresh and uplifting body wash that leaves your skin clean and soft.

Kalahari Gentle Cleansing Milk is a velvety non-foaming facial milk that gently removes impurities, leaving your skin ultra-moisturised and silky soft.

Minu Hair Serum contains natural active ingredients capers from Sicilia and Vitamin E. It is ideal for all hair types and aids you in keeping your colour for longer. Its leave-on formula is designed to give extra shine to coloured hair.

Africa Organics Boobab Clay Wash is certified by Ecocert Greenlife, approved by the Vegan Society of South Africa and Beauty without Cruelty and is accredited by PhytoTrade Africa. The mild foaming formula is made with pure botanical extracts and is full of detoxifying bentonite clay and balanced with boobab powder.

Earhsop Deodorant in Grapefruit & Geranium is made from pure simple ingredients and essential oils. The deodorant doesn't contain aluminium or other harmful chemical ingredients.
